

Clinical and Translational Science Seminar Series

“Molecular therapies for skin fragility: first-in-human phase I clinical trial of autologous fibroblast gene therapy” Online seminar

Speaker: Dr. Su Lwin

**Genetic Skin Disease Group
St John's Institute of Dermatology, King's College London, UK.**

27 de octubre 2021, 15:30–17:00 horas Reunión de Microsoft Teams. Únase a través de su PC o aplicación móvil

Dr. Lwin is a dermatology registrar and an honorary clinical research fellow in the Genetic Skin Disease Group at St John's Institute of Dermatology. She graduated from Guy's, King's and St Thomas' School of Medicine in 2008 with MBBS and BSc (Hons) in Neuroscience and Basic Medical Sciences. Dr. Lwin is a dermatology registrar and an honorary clinical research fellow in the Genetic Skin Disease Group at St John's Institute of Dermatology. Her research focus is on novel therapeutics: gene and cell therapies. She graduated from Guy's, King's and St Thomas' School of Medicine in 2008 with MBBS and BSc (Hons) in Neuroscience and Basic Medical Sciences. She is currently focused on the translational journey of gene and cell therapies working with both scientists and clinicians. She led and completed a first-in-human phase I clinical trial of autologous fibroblast gene therapy.

Moderator: Dra. María José Escámez. Cátedra de Investigación IISFJD-UC3M-CIEMAT

Contact: Eva Muñoz (evangelina.Munoz@externos.ciemat.es) y Raquel Largo (rlargo@fjd.es)

Note: Free seminar. Certificates of attendance are available to those who register in advance by sending an email to Eva Muñoz: evangelina.Munoz@externos.ciemat.es
